This morning a call was received from Dora R. Tennant in the White House Tour Office requesting a tour of FBI Headquarters for some friends of Donald Nixon, the President's brother, identified as Mr. and Mrs. Don Coombs and their four children. The group will tour the White House the morning of 7-29-70 and would like to come here around 11:00 a.m. the same day. It was pointed out that Donald Nixon requested no special treatment; however, arrangements have been made for the group to report to my office (Room 5736) and, if you have no objections, Special Agent H. C. Flemister, Jr., of the Domestic Intelligence Division, will take this group on tour.

ACTION:

For your information and consideration.
